March 2015 SpaceOps Update

Dear SpaceOps Participant:

You have received this issue of the SpaceOps Update e-newsletter because you have expressed interest in space operations as part of your AIAA membership, attended a past SpaceOps Conference, or requested to be added to the mailing list. The SpaceOps Update is published quarterly and contains information of interest to the space operations community. If you do not wish to receive this e-newsletter in the future, please email info@spaceops.org.

In This Issue...

- [Don't Miss Out on SpaceOps 2016](#)
- [Improving Space Operations Workshop](#)
- [Journal of Space Operations & Communicator](#)
- [Join the SpaceOps Organization](#)

For more information about the SpaceOps Organization, visit <http://www.spaceops.org> or e-mail info@spaceops.org or refer to the online Journal for Space Operations & Communicator at <http://opsjournal.org>.

Don't Miss Out on SpaceOps 2016

SpaceOps 2016

Join your colleagues from around the world to "Expanding the Space Community" at the 14th International Conference on Space Operations, held 16-20 May 2016 in Daejeon, South Korea. It's your opportunity to share your experiences, challenges, and innovative solutions with colleagues from around the globe, and take home new ideas and new connections.

Hosted and organized by the Korea Aerospace Research Institute (KARI) SpaceOps 2016 will bring together the space operations community to address state-of-the-art operations principles, methods, and tools.

For more information about SpaceOps 2016 visit:
<http://www.spaceops2016.org/>

Improving Space Operations Workshop

The AIAA Space Operations and Support Technical Committee announces the 21st Annual Improving Space Operations Workshop to be held 5-6 May 2015 at the Sheraton Pasadena in Pasadena, California. The theme of the workshop is Game Changing Technologies and Strategies. W. Kent Tobiska, President, Space Environment Technologies, is a confirmed plenary speaker. The title of his talk is Space Weather and Space Operations: Significance and Risks. Also speaking is Chet Richards, Raytheon Space and Airborne Systems (Retired). He will be speaking on Affordable Space: A New Paradigm.

For more information on the workshop about workshop format, accommodations, and registration information, please click [here](#).

For more information about the AIAA Space Operations and Support Technical Committee click [here](#).

Journal of Space Operations & Communicator

A multidisciplinary journal for space flight operations, the Journal of Space Operations & Communicator is jointly published by the Space Operations and Support Technical Committee within AIAA and the SpaceOps Organization. This publication is seeking submissions on all topic areas related to the operation of space missions, including their ground support. Representatives of agencies, academia, and industry are encouraged to submit their work.

Recently there have been two major achievements:

- The Journal of Space Operations & Communicator has been registered as an official publication Journal for papers. The ISSN No is 2410-0005 and has been registered with ResearchGate: <https://www.researchgate.net/home.Home.html>. Potential authors of papers are encouraged to submit "in between"- SpaceOps Conferences papers to the "Journal" (contact: joachimkehr@aol.com) for immediate peer review and publication.
- The SpaceOps Organization has been officially accepted by Wikipedia: look for "SpaceOps". The entry would need more "independent" editing: All Wikipedia editors are encouraged to improve the importance of SpaceOps!

The Journal of Space Operations & Communicator is now on Facebook! You are invited to join this unique, ever-growing international SpaceOps community for exchange of experience and new ideas.

For more information about the Communicator visit <http://opsjournal.org/>.

Join the SpaceOps Organization

As the space operations community grows, we encourage your organization to join the SpaceOps Organization. The SpaceOps Organization has recently created a new membership category for industrial members and other interested organizations.

Participation in SpaceOps as a Partner or a Member will bring you close association with the agencies and partner organizations focusing on space operations, allow you to help determine the content of the biennial conferences, and help shape the future of the community.

Please forward this information to your colleagues and co-workers so that they too can stay on top of what is happening in space operations!

To be added to the SpaceOps mailing list or for more information about becoming a Partner or a Member of the SpaceOps Organization, please email the SpaceOps Secretariat at info@spaceops.org. There are no membership fees.

For more information about the SpaceOps Organization visit <http://www.spaceops.org>.

The American Institute of Aeronautics and Astronautics (AIAA) is the world's largest technical society dedicated to the global aerospace profession.
